Revised to: NA

The following corrections, changes, additions, deletions, revisions, and/or clarifications are hereby made a part of the Contract Documents. In case of conflicts between this Addendum and previously issued Documents, this Addendum shall take precedence. **The bidder must acknowledge receipt of this Addendum in the space provided on the Submittal Page**, failure to do so may subject the bidder to **disqualification**.

CHANGES TO THE BID DOCUMENT:

1. **STRIKE** the Bid Form as written for a total of 3 pages and **REPLACE** with the REVISED Bid Form. See attachment for a copy of the revised form.

CLARIFICATIONS RESULTING FROM BIDDER'S QUESTIONS:

1. Q: For line item 606(11) an ET-2000 Extruder Terminal is listed. We would like to suggest the MASH approved Soft Stop as an alternative. The soft Stop is newer, more cost effective system that would save roughly \$600 in materials alone. Please let us know if you have any questions, and if this substitution would be accepted.
A: Bid the item as it is specified.
2. Q: Regarding Item No. 602(2B) in the Estimate of Quantities – Basic Bid Table. We noticed it is called out as 12 GA in this location on the plan set – which is not an option for this size of pipe arch. The next available gage in this configuration is 10 GA which we noticed WAS in fact called out in the specifications. Can you confirm the 12 GA in the table on the plan set was a typo?
A: Sheet C-1 dated 1/17/2020, page 104 of the Bid Document and a part of Attachment 1: Plan supersedes Sheet C-1 dated 11/26/2018, page 137 of the Bid Document which is actually part of Attachment 3: Permits.
3. Q: S 671-2.01, Coir Logs: This section states that the Contractor will supply coir logs. I cannot find them depicted in the project drawings. Are these intended to be included in the Stream Simulation plans?
A: No, the plans are correct.
4. Q: S 671-3.03, Rootwad Bank Const.: The footer log is omitted from installation instructions. Is it intended that the boles rest on the Stream Substrate, or to have a footer log underneath as shown on Sheet L1 under Rootwad Layering Section View?
A: The rootwad layering detail on sheet L1 is correct.

ADDENDUM CONTINUES ON THE NEXT PAGE

5. Q: S 671-3.03, Rootwad Bank Const., Item 8.: Item 8 says to place brush layering behind header log. If brush layering is installed behind the (backfilled) header log, it will end up higher than the OHW line. Is this the intended position of the brush layering, or should it be directly behind the header log - nearer the OHW - as stated in the specification?

A: Install these brush layers per the rootwad layering detail on sheet L1.

6. Q: Will the first (and only anticipated) layer behind the header logs also need to be 100 percent Feltleaf Willow?

A: Yes

7. Q: On the headwalls for the fish passage, can you tell me if the rebar is to be epoxy coated or not?

A: No. It would be called out on Sheet E8 and mentioned in Section 709.

REVISED BID FORM
BID #20-095B
MARBLE WAY FISH PASSAGE

Having carefully examined the Project Plans and Specifications and all Bidding and Contract Documents as listed in the "Table of Contents" and in compliance with the "Invitation for Bids", the undersigned hereby proposes to furnish all materials, labor, equipment, and supervision necessary to complete the **MARBLE WAY FISH PASSAGE** project for the Matanuska-Susitna Borough in full accordance with the Bidding Documents.

The bidder shall insert a Unit Price and an Extended Price (where applicable) opposite each Pay Item that appears in the Schedule. Contract award will be made to the responsive and responsible bidder with the lowest Total Bid Amount. All erasures, strike-through, white-out and/or corrections made on this form must be initialed.

Item Number	Work Description	Pay Unit	Estimated Quantities	Unit Price	Extended Price
201(3B)	Clearing	Lump Sum	All Required		\$
202(1)	Removal of structures & obstructions	Lump Sum	All Required		\$
202(4)	Removal of culvert pipe	Linear Foot	94	\$	\$
203(1)	Common excavation	Cubic Yard	4,672	\$	\$
203(6)	Borrow, Type B	Ton	1,649	\$	\$
203(19)	Borrow, Type II-A	Ton	4,773	\$	\$
301(3)	Aggregate surface course, grading E-1	Ton	339	\$	\$
501(1)	Class A concrete	Lump Sum	All Required		\$
602(2A)	Structural plate pipe-arch 12'-10" span x 8'-4" rise, 12 gage	Linear Foot	70	\$	\$
602(2B)	Structural plate pipe-arch 18'-1" span x 11'-10" rise, 10 gage	Linear Foot	70	\$	\$
603(1-12)	12-inch CSP	Linear Foot	106	\$	\$
606(1)	W-beam guardrail	Linear Foot	188	\$	\$
606(6)	Removing and disposing of guardrail	Linear Foot	100	\$	\$
